REPORT OF HEALTH DEPARTMENT

The year of 1940 was very free from contagious and infectious diseases until the very last month, when a moderately severe epidemic of whooping cough was contracted, which is still prevailing, although the symptoms are gradually abating. Miss Varney has kept up a constant vigil, excluding pupils on the appearance of symptoms of the malady, which has somewhat lessened the exposures but which has been of more value to the victims of the disease that they might receive treatment before it became too far advanced.

There has been a mild type of influenza, which has attacked all ages, usually entire families but recovery has occurred after a few days except in a small number of elderly people who apparently contacted a more virulent type of the disease.

No other contagious diseases have been in the community, except a few cases of chicken pox which as usual were very mild.

The water and milk supply have been examined at different times during the year and have been found satisfactory on all occasions.

A great deal of credit is due Miss Varney for her untiring efforts in the schools, her excellent co-operation with the teachers, and the interest she has taken in the homes of families when their children were confined with illness, also for her promptness in notifying the health department at the outbreak of any communicable disease.

AUDITORS' REPORT

This is to certify that we have audited the records of the Tax Collector for the current year, and find all taxes accounted for. We have checked the revenue received from the Town Clerk for motor vehicle permits and dog licenses. The Selectmen's orders and receipts were checked with the vouchers and Treasurer's cash books and were found correct. The Treasurer's balance in the Colebrook National Bank was reconciled with the Selectmen's cash book balance, and was found correct.
